

SUSTAINABLE ASSESSMENT FOR Textile INDUSTRY

COMPANY OVERVIEW

ScorePoint Solutions is a third party certification and environmental testing laboratory that provides its clients with testing, inspection and consulting services. The laboratory has highly experienced and qualified engineers, chemist and technicians to provide quality testing and assessment services within scope. Our services focus on the improvement of our client's awareness and understanding of the various laws and COC's (Code of Conduct) that regulate their industry.

We provide transparent & independent information regarding the circumstances under which their products are manufactured.

OUR MISSION

To be the world's most trusted partner for Quality Assurance by bringing quality and safety to life and surpassing our customers' expectations with innovative and bespoke Assurance, Testing, Inspection and Certification services for their operations and supply chain globally.

OUR VISION

We aim to be the most competitive and the most dynamic service organization in the world. Our core competencies in inspection, verification, testing and certification are being continuously enhanced to be best-in-class. They are at the heart of what we are. Our chosen markets will be solely determined by our ability to be the most competitive and to reliably deliver incomparable service to our customers all over the world. Also, being epitomized by our passion, integrity, entrepreneurialism and our innovative spirit, as we continually strive to fulfill our vision, our values guide us in all that we do and are the bedrock upon which our organization is built.

Our Services

Business Social Compliance Initiative (BSCI)

The Business Social Compliance Initiative (BSCI) is a leading supply chain management system that supports companies in their efforts to drive social compliance and improvements within the factories and farms in their global supply chains. It provides a systematic approach for monitoring and assessing workplace standards across all sectors and sourcing countries.

SEDEX (Suppliers Ethical Data Exchange)

Sedex is a not for profit membership organization dedicated to driving improvements in responsible and ethical business practices in global supply chains. As the largest collaborative platform for sharing ethical supply chain data, Sedex is an innovative and effective supply chain management solution, helping you to reduce risk, protect your company reputation and improve supply chain practices. E-Text Solution is offering sedex audit by their competent lead auditors with very competitive price.

Global Organic Textile Standard (GOTS)

Sustainable fashion, ethical clothing, fair production have many meanings. The Global Organic Textile Standard (GOTS) has a clearly defined set of criteria and is transparent. GOTS is the worldwide leading textile processing standard for organic fibres, including ecological and social criteria, backed up by independent certification of the entire textile supply chain. GOTS certified final products may include fibre products, yarns, fabrics, clothes, home textiles, mattresses, personal hygiene products, as well as food contact textiles and more.

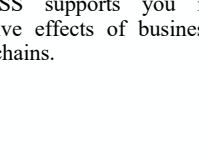

Our Services

OEKO-TEX@ - Inspiring Confidence

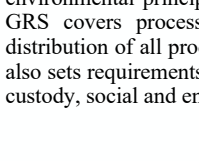

Everyone can make responsible decisions and protect natural resources. Products with the labels OEKO-TEX@ STANDARD 100 and OEKO-TEX@ LEATHER STANDARD have been scientifically tested for the presence of harmful substances and are a better and safer choice for your health. Textiles and leather with the OEKO-TEX@ MADE IN GREEN label are produced more sustainably in socially responsible workshops. The OEKO-TEX@ STEP certification and the DETOX TO ZERO analysis set the highest standards for social and environmental aspects of textile and leather production. Chemicals and treatments that meet the OEKO-TEX@ ECO PASSPORT standard have been tested and analyzed according to strict criteria, for a lower environmental impact. OEKO-TEX@ RESPONSIBLE BUSINESS supports you in preventing or limiting existing and potential negative effects of business operations within your own activities and your supply chains.

Global Recycled Standard (GRS)

The Global Recycled Standard (GRS) is a voluntary product standard for tracking and verifying the content of recycled materials in a final product. The standard applies to the full supply chain and addresses traceability, environmental principles, social requirements, chemical content and labeling. GRS covers processing, manufacturing, packaging, labeling, trade and distribution of all products made with a minimum of 20% recycled material. It also sets requirements for third-party certification of recycled content, chain of custody, social and environmental practices, and chemical restrictions.

Recycled Claim Standard (RCS)

The Recycled Claim Standard (RCS) is an international, voluntary standard that sets requirements for third-party. It is a chain of custody standard to track recycled raw materials through the supply chain. It uses the chain of custody requirements of the Content Claim Standard (CSS).

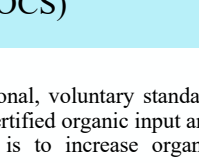

Our Services

Organic Content Standard (OCS)

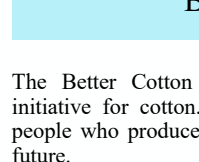

The Organic Content Standard (OCS) is an international, voluntary standard that sets requirements for third-party certification of certified organic input and chain of custody. The primary goal of the OCS is to increase organic agriculture production.

Better Cotton Initiative (BCI)

The Better Cotton Initiative (BCI) is the world's leading sustainability initiative for cotton. It exists to improve global cotton production for the people who produce it, for the environment it grows in, and for the sector's future. BCI trains farmers to use water efficiently, care for soil health and natural habitats, reduce use of harmful chemicals, and respect the rights and well-being of workers.

Good Manufacturing Practices (GMP)

Good Manufacturing Practices (GMP) are guidelines that provide a system of processes, procedures, and documentation to ensure that products are consistently produced and controlled according to quality standards. GMP covers all aspects of production, from the starting materials to the final product. It ensures products are of high quality and free from contamination.

Our Services

ISO 9001:2015 (Quality Management System)

An ISO 9001:2015 certificate proves that your quality management system has been certified against a best practice standard and found compliant. E-Text Solution lets customers know they can trust that they have implemented the necessary internal processes to meet obligations. It can be used by any organizations to provide safe and healthy workplaces by preventing work-related injury and ill health, as well as by proactively improving its OH&S performance.

ISO 14001:2015 (Environmental Management System)

An ISO 14001:2015 certificate proves that your environmental management system has been measured against a best practice standard and found compliant. The certificate is issued by a third party certification body/registrars; "E-Text Solution" proves that you are actively minimizing the environmental impacts of your company's processes, products and services. ISO 14001:2015 is applicable to any organization, regardless of its size, type and nature, and applies to the environmental aspects of its activities, products and services that the organization determines it can either control or influence considering a life cycle perspective.

ISO 45001:2018 (Occupational Health and Safety)

ISO 45001:2018 specifies requirements for an occupational health and safety (OH&S) management system and gives guidance for its use, to enable organizations to provide safe and healthy workplaces by preventing work-related injury and ill health, as well as by proactively improving its OH&S performance.

Our Services

Social & Labor Convergence Program (SLCP)

The Social & Labor Convergence Program provides the tools to capture accurate data about working conditions in global supply chains. This multi-stakeholder initiative replaces the need for repetitive social audits by facilitating data sharing.

Higg Index

The Higg Index is developed and owned by Cascale (formerly the Sustainable Apparel Coalition), a global nonprofit alliance of 200+ brands, retailers, and manufacturers. It serves as a standardized measurement framework that has become the most widely-used within the apparel and consumer goods industries. Worldly is the exclusive licensee of the Higg Index and we're proud to serve Cascale members.

Responsible Jewellery Council (RJC)

Responsible Jewellery Council (RJC) Code of Practices Certification. RJC's Code of Practices is a landmark standard for the jewellery supply chain and addresses a wide range of supply chain issues, including business ethics, human rights, social and environmental performance. The standard also gives companies and consumers a way to know what's in the products they buy. The RJC standard requires certification achievers must meet rigorous animal welfare, land management and social requirements. Top brands and industry organizations behind the standard include H&M, Kering, Patagonia, and Outdoor Industry Association.

Our Services

FSC (Forest Stewardship Council)

FSC-Forest Stewardship Council and is a worldwide non-governmental organization recognized by the world. Its goal is to achieve sustainable forest development by promoting environmentally friendly, socially harmonious and economically effective management.

C-TPAT (The Customs Trade Partnership against Terrorism)

The C-TPAT audit (Customs-Trade Partnership Against Terrorism) is a supply chain security assessment program implemented by U.S. Customs and Border Protection (CBP). The goal of the audit is to ensure that participating importers have adequate security measures in place to protect against the risk of terrorism and other security threats.

Responsible Down Standard (RDS)

RDS incentivizes the down and feather industry to treat ducks and geese humanely and rewards organizations leading the way. The standard also gives companies and consumers a way to know what's in the products they buy. The scope of the RDS includes the full down supply chain from the farms and slaughter facilities (animal welfare) to the down processors and garment factories (traceability).

Responsible Wool Standard (RWS)

The Responsible Wool Standard (RWS) is a certification for wool farmers and sellers that aims to improve the welfare of sheep and the land they graze on. The RWS standard requires certification achievers must meet rigorous animal welfare, land management and social requirements. Top brands and industry organizations behind the standard include H&M, Kering, Patagonia, and Outdoor Industry Association.

Our Services

Hazard Analysis Critical Control Point (HACCP)

HACCP (Hazard Analysis and Critical Control Points) is a systematic preventive approach to food safety that addresses physical, chemical, and biological hazards as a means of prevention rather than finished product inspection. It is used in the food industry to identify potential food safety hazards so that key actions can be taken to reduce or eliminate the risk.

Food and Drug Administration (FDA)

The Food and Drug Administration (FDA) is a regulatory agency of the United States Department of Health and Human Services. It is responsible for protecting public health by ensuring the safety, efficacy, and security of human and veterinary drugs, biological products, and medical devices, as well as the safety of the nation's food supply, cosmetics, and products that emit radiation.

Medicines and Healthcare Products Regulatory Agency (MHRA)

The Medicines and Healthcare Products Regulatory Agency (MHRA) is the executive agency of the UK Department of Health and Social Care. It is responsible for ensuring that medicines, medical devices, and blood components for transfusion meet applicable standards of safety, quality, and efficacy. The MHRA plays a critical role in regulating clinical trials and monitoring adverse drug reactions.

Ensuring Excellence Through Certification & Training

ScorePoint Solutions has been a trusted name in third-party certification audits, helping organizations achieve and maintain internationally recognized standards. Our expert auditors conduct comprehensive assessments to ensure businesses comply with ISO standards, social compliance requirements, and industry best practices.

Beyond certification audits, ScorePoint Solutions plays a pivotal role in training and capacity building. We provide specialized training programs on ISO standards, social compliance, and textile related best practices, tailored to meet the unique needs of the textile industry and various other sectors. Our training sessions equip organizations with the knowledge and tools needed to enhance operational efficiency, improve compliance, and deliver high-quality services to their customers.

By partnering with ScorePoint Solutions, businesses gain access to expert guidance, structured audits, and in-depth training, ensuring that they meet global standards, mitigate risks, and drive continuous improvement in their operations.
